Full Circle Farm Summer Science Camp

	Session	Dates	Times	Entering Grades	Cost
	Chirping Chickadees	June 21st–25th	9:00am–1:00pm	1st/2nd Grade (5–7 yrs old)	\$195
	Jumping Blue Jays	July 12th–16th	9:00am–3:00pm	3rd/4th Grade (7–9 yrs old)	\$295
	High Flying Hawks	July 26th–30th	9:00am–3:00pm	5th/6th Grade (9–11 yrs old)	\$295

Full Circle Farm Summer Science Camps will provide garden-based learning through hands on exploration, produce harvestings and tastings, art projects, and scientific experiments.

There will be daily themes focusing on important aspects of the natural world such as growing seeds, plant parts, secrets of soil, and powerful pollinators. Each day will begin with a combination of garden tasks and farm-fresh snacks, we will then “dig in” to investigatory activities, and will wrap up the day with arts and crafts projects to take home.

Activities include: planting seeds, harvesting veggies and leafy greens, making beeswax candles, constructing a solar oven, building sundials and kites, exploring vermiculture, relay races, garden treasure hunts, and lots more!
